MACHINISTS' CASE NO. 520

Neither heat nor moisture will affect the case. The drawers slide easily on super-compound drawer slides that stop only after they are extended out of the case giving a clear view of the contents. The slides are very strong and will not break down. Drawers completely lined with felt.

Case is strongly reinforced with boxed ends. Front panel, which slides under drawers when box is open, fits against drawers, locking them with lid lock. 100-change lock. Bright Zinc Plated fittings make attractive combination with seal brown ripple baked enamel finish. An adjustable partition is now placed in each drawer except the bottom one. Additional partitions may be purchased.
